Description

I am addicted to the website [Pinterest](#). For years I have been ripping images out of magazines and have various notebooks filled with recipes, decorating ideas, quotes, books I love or want to read, places I want to visit, etc. With pinterest I can store all of my ideas and images on a virtual board on my computer. The best part about it is that you can see what other people are pinning and follow friends who are also on the site. I spend more time repinning things than I do adding images I found on the internet. For those who are technically challenged like myself and if this pinning business sounds like Greek to you have no fear, there are several tutorials on the internet. One that I came across is http://www.youtube.com/watch?v=QtmmGA0M_yk . Goodbye facebook, hello pinterest. Happy Pinning!
