Greenwich Village- Sex and The City was filmed here.

Lady Liberty at Sunset

I love to share new things I discover whether it be a store, book, recipe or in this case a website. My friend came across it when we were looking for some ideas of different things to do in New York City.

The website is [Goldstar](#). It offers half price tickets on shows and attractions in certain major cities. We did a New York City Water Taxi tour at Sunset and The Greenwich Village Sampler guided walking tour. The site was easy to use. We just printed our confirmations and the rest was smooth sailing.
