

Fall Nail Polish

Description

I'm not much of a beauty queen, but these are some nail polish colors I'm loving right now. Essie has a new Fall collection of polishes which can be found [here](#) . I love all of the colors! The polishaholic shows what all of the colors look like on her nails which is helpful. I'm a nail biter so I'll spare you a photo of my short jagged nails. I know it's gross, but it's a nervous habit. My nails actually grow out rather nicely if I keep polish on them. I'm fairly low maintenance when it comes to beauty routines, but I love a pedicure. Fortunately I'm not a toenail biter which would be really gross. What's your favorite nail color?
