

Pumpkin Love

Description

default watermark

I love the flavor of pumpkin. It's something I associate with the months of October and November. I realize it's not limited to these months, but for some reason I mainly enjoy it during this time of year. A lot of companies will feature pumpkin flavored items for a limited time only. These are some of the pumpkin products that I'm currently enjoying. Unfortunately, the pumpkin shake is no longer offered at McDonalds. The good news is you will be saving yourself 680 calories which is half a days caloric intake for some people. McDonalds is already featuring their new holiday Eggnog Shake (I'm not a big fan of eggnog). I don't know about you, but I feel as though marketing companies keep rushing us through the holidays before they even get here. I feel they

shouldâ€™ve kept the pumpkin shake at least until Thanksgiving. It seems like Thanksgiving always gets the shaft. I have a feeling the Pumpkin Pie Pop Tarts wonâ€™t be around for too much longer either. I havenâ€™t bought pop tarts in years, but I just had to try them. They are pretty tasty. If you like pumpkin, I hope you take the time to enjoy it this month. Next week Iâ€™ll be sharing some pumpkin recipes. Please leave a comment on any pumpkin items youâ€™ve found in the stores. Iâ€™ll be eating pumpkin until Iâ€™m orange in the face. (corny I know, but I just had to say that)
