

Photobombing

Description

Source: [National Geographic](#)

This photo I saw on Pinterest makes me smile. I'm not a big fan of squirrels. It's just like a squirrel to photobomb a picture. My daughter likes to photobomb pictures as well. The photo below is

from our trip to South Dakota this summer. We stopped in Sioux Falls to check out the Falls. I can't remember who this is a statue of, but it reminded me of Rodin's famous sculpture The Thinker. I wrote about some highlights of our trip in a past post [here](#).

Can you spot the photobomber?
