Now that I've covered everything you need to know to plan the perfect BBQ in the [Lazy Days and BBQ series](#) it's time to spruce up your outdoor patio or deck. These are a few items I decided to feature from one of my all time favorite stores Target. If you live in my area you are bound to find me in Target at least once a week. It never fails that I run into someone I know.

I purchased the Enjoy the Day outdoor pillow to put alongside some orange ones I purchased last year. I'm also really loving the ikat print pillows and ottomans. They come in several colors (number 2 & 3) When planning your outdoor space a rug can help to define a living or dining area (number 1). Outdoor lanterns help light your space in the evening. Threshold has created several styles of ceramic lanterns that are solar powered (number 4).

I've been collecting a few images of patio ideas I love on my pinterest board titled backyard. You can click [here](#) to view more images. I hope this inspires you to get your patio or deck ready for the summer. I'll be working on mine this week!
