# DECORATING WITH ROPE

## 5 CRAFTS TO MAKE NOW

joyfulscribblings.com

I spend a lot of time on pinterest. It's one of my favorite pastimes. Lately rope crafts have caught my attention. Rope is easy to find, inexpensive and who knew you could all make kinds of fun things with it. I love incorporating texture in my home with wicker baskets and sisal rugs. Rope is another easy way to add texture to a space. It can also provide a nautical or country feel depending on which you fancy. The following are a few of my favorite DIY rope projects. Click on the link under each photo for complete instructions on how to make each project.

### Rope Coasters
