

## 12 Recipes On A Stick

### Description

*default watermark*

In honor of the State Fair I thought it would be fun to post some recipes on a stick. There's something about eating food on a stick that just makes it more fun. However, I thoroughly enjoy eating with or without a stick. It's all about the presentation. I've included some sweet and savory ideas. They would be great to serve at a party especially when seating is limited. You can eat these foods right off the stick without the need for utensils. We will be headed to the Missouri State Fair this weekend. I shared a few photos from our visit to the state fair last summer [here](#).

To find the recipe for each photo please click on the link to the original source.
