

## Mio Restaurant & Pizzeria

### Description

Eating out at restaurants is a **simple joy** to me. I love when other people cook . My friend Cathy introduced me to **Mio**, a specialty cuisine concepts restaurant. There are two Mio locations in the same strip center located at 135th & Roe. [Mio Trattoria](#) and [Mio Pizzeria](#) are equally delicious. Iâ€™m a little picky when it comes to Italian food, but Iâ€™ve really enjoyed the dishes Iâ€™ve eaten at both places. The pizza and salads are delicious. They offer a nice selection of \$25 bottles of wine, the staff is friendly and they have the best little cookies that melt in your mouth which are served with coffee. Iâ€™ve got to get that cookie recipe!

This is a list of some of my other favorite restaurants in the Kansas City area. Please click on the title of each place to take you to the post.

[Martin City Brewing Company](#)

[Genesse Royale](#)

[Chez Elle](#)

Unforked  
Crispy Avocado Taco and Hail to the Kale Salad

[Unforked](#)

These are just a few of the many places I enjoy. I've tried to feature a few places that those who live in the area may not have tried. Those readers who don't live in the Kansas City area will have to visit sometime and partake in the many restaurant choices we offer. Kansas City is best known for its BBQ and ironically I've not listed one BBQ place. You can't go wrong though when it comes to BBQ in Kansas City. What's your favorite place to dine out?
