Sugar Pearl Designs

[Sugar Pearl Designs](#) is based out of the Sugar Sand Beaches of the Emerald Coast. The pearls are freshwater & hand drilled to fit every piece perfectly. Each piece of jewelry is hand crafted by a mother and daughter team. Leather and pearls jewelry originated in France, and was introduced to the Gulf Coast a few years ago. After shopping and seeing the prices, this mother daughter team began to create their own jewels and are able to provide quality leather and pearl jewelry at reasonable prices.

While I was vacationing in [Seaside, Florida](#) last spring I noticed pearl and leather jewelry everywhere. The prices were a little steep for me in some shops so I decided to ask a young gal working at one of the boutiques where she got her necklace. As luck would have it she created the necklace and gave me her card. I checked out [Sugar Pearl Designs website](#) and immediately ordered a necklace and bracelet. You can read about it in my past post [here](#). Diamonds may be a girls best friend, but I think pearls run a close second. Iâ€™ve fallen in love with pearl and leather jewelry.

Iâ€™ve been very happy with my purchases and love that this is a mother/daughter team sharing their passion for creating affordable pearl and leather jewelry. Sugar Pearl Designs has graciously donated a necklace to giveaway to one lucky reader. I noticed that this style of necklace was very popular when I was in Florida. Iâ€™m thinking I may have to add it to my wish list. You can visit [Sugar Pearl Designs website](#) to see their full collection of jewelry and you can also find them on [facebook](#).

Please use the rafflecopter form below to enter the giveaway.
