

## Sunflower Fields Forever

### Description

Instead of strawberry fields forever it is **sunflower fields forever** in Lawrence, Kansas. The weather was gorgeous in the Kansas City area this past weekend so I took full advantage of being outside and enjoying it. I had seen pictures of the sunflower field on Facebook, but wasn't exactly sure where it was located. It turns out it's right down the street from my brother and sister-in-law's house.

The sunflowers are starting to wither and seed. Grasshoppers, bees and other insects have been feasting on them, but we found a few that were still in full bloom.

*default watermark*

This picture gives you the perspective of how tall the sunflowers are.

Iâ€™m grateful for the farmers in this world who grow beautiful flowers and fruits and vegetables. I hope this sunflower field planted by [The Grinter Family](#) made you smile. I know it did me. The Grinter Sunflower Field is located at 24154 Stillwell Rd., in Lawrence, Kansas.
