7 Simple Party Ideas

joyfulscribblings.com

Iâ€™ve rounded up seven simple party ideas that are easy, but can take a party from drab to fab. Combine the ideas or pick one or two to focus on and keep things even more simple. I have some secret boards on Pinterest where I collect ideas I find for future posts and these are a few of my favorites from other blogs. I believe just by adding a few simple touches to a party it can really make a difference and make the guest/guests of honor feel special.

Please click on each link for complete instructions on each simple party idea.

These [wildcat cake stands](#) from A Beautiful Mess are so fun. They could be used for a Circus Theme Party or paint them purple for a K-State Football Wildcat Party or Gold for the University of Missouri Tigers.

default watermark

I love these [DIY Gumball Drink Stirrers](#) from Studio DIY. So easy and cute! They would be great for a kid's party like my friend Mary's [Candy Party](#) I shared in a past post or even a family BBQ.

default watermark

This is such a simple idea for glamming up plain number birthday candles from [Banman Land](#). I wish I had thought of it. Not a glamour girl? How about gluing on shells for a beach inspired party or pieces of broken crayons for a budding artist.

ITALIAN SODA BAR

- fill glass with ice
- add 3-4 pumps of flavored syrup (feel free to mix flavors!)
- fill with carbonated water
- add whip cream & straw

TidyMom.net

I want to create an Italian Soda Bar at a future party like this one from [Tidy Mom](#). Cheryl created it for a graduation party, but you could have one at almost any party and both kids and adults would love it.

I couldn't find the direct link for this image, but it comes from [Oh Sugar Events](#). I'm thankful toward the end of sleepover parties, but for those of you who aren't I thought this was such a clever idea especially since I'm not a morning person. Throw some donuts, orange juice, milk, and a bowl of fruit in the mix and call it good.

I have a thing for cocktail stirrers and the gals at A Beautiful Mess. These [monster cocktail stirrers](#) would be fun for a Halloween party or kids party.

Hosting an ice cream social these last few weeks of summer? These [feeling fruity ice cream cone wrappers](#) are a free download you can print when you subscribe to Tiny Me. There are all sorts of other feeling fruity printables available as well. I also love a few of these simple [13 Summer Party Hacks](#) from A Subtle Revelry.

I hope one of these ideas inspires you to add a special touch to your next party. The possibilities are endless!
