

ONEHOPE Wines For A Cause

Description

default watermark

Are you interested in drinking wine, socializing with friends and helping make the world a better place? I am, so when my neighbor Kelly shared with me the mission of [ONEHOPE](#) I agreed to host a wine tasting and share their story on my blog. I believe in celebrating, connecting with others and making an impact in my own small way. ONEHOPE provides an opportunity to do that through the purchase of their products. They began with their award-winning wine and have expanded into gourmet coffee and gift boxes.

I â€™d been wanting to have some friends over this summer and the wine tasting was a great way to entertain as well as give back. We sampled 10 bottles of wine including a sparkling Brut. Each bottle supports a different cause. [ONE HOPE](#) has made an impact in many ways such as: feeding meals to hungry children in the United States, providing behavioral therapy for children with autism, helping veterans continue their service through disaster relief, providing cancer screenings, providing shelter for animals and planting trees for reforestation projects.

You can see the impact [ONEHOPE](#) has made to this date below. The wines are crafted in collaboration with Rob Mondavi, Jr., and half the profits of each bottle is donated to a social cause.

If you choose to host a wine tasting ONEHOPE also gives 15 % of your sales to the cause of your choice. I chose [Braden's Hope for Childhood Cancer](#) which is a cause that is local.

A lot of thought went into the design of the ONEHOPE labels. The dots represent a statistic which is listed on the back label. For the Pinot Noir the fact is it's estimated that approximately 50% of animals in shelters will find homes live casino go. This bottle helps fund a pet adoption so every animal finds a loving home. Every cork also has a quote on it. If you follow my blog regularly you know how I love a good quote.

The sparkling Brut glitter bottles make a special wedding or anniversary gift. Each bottle of the sparkling brut in silver glitter supports 15 meals to one hungry child in the U.S. and the Pinot Noir red glitter edition educates five people on their risk of heart disease.

The wine tasting was an easy party to throw together and my Cause Entrepreneur via ONEHOPE (CEO) Kelly created and sent out my invitations. I just needed to be home to sign for the wine which came straight to my door. I purchased some meats, cheeses and crackers to go with the wine. Kelly provided me with a ONEHOPE wine and food pairing list which took out all of the guess-work on what to serve. I naturally had to include a few dessert options. Everyone knows wine pairs well with chocolate.

My dog Fritz is never one to miss a party especially when there is food involved and women who will love on him. I think ONEHOPE needs to adopt him as their poster dog for Pinot for Paws. What do you think?

If you are interested in hosting a wine tasting to support the cause of your choice or purchase corporate gifts you can contact Kelly at kellyhnks@msn.com. You can also shop for products on [her website](#).
